

I am summarizing the following links which indicate among other things various US administrations are involved in the continuing use of lies euphemistically called pretexts, a practice it seems is not limited to US officials. These lies are used to justify US policies that advance the interests of a small number of corrupt individuals buying politicians for their own gain and influence. The link list is not complete, but it is so much work to investigate in detail, I am pressed for time.

I have a background in dealing with actuarial information and behavior control, and as cited in the main cite, have had a lot of help. Citizens are a serious impediment to the 1% taking full control of fragile republics. As you can see from the attacks of people who protest or object to their conduct, they are belittled, called names and marginalized.

The links I am perusing look for evidence that:

1. Citizens are being lied to by their governments
2. Governments are launching massive behavior control and propaganda programs for use on the electorate
3. The courts have been bought and paid for, and in combination with government and government controlled bodies are marginalizing citizens input in favor of corporations

### **Footprints of Evil - Pretexts and Lies Used to Destroy Sovereign States, Murder Innocent People, Lie to Citizens**

*Note: The text below came directly from the sites in the links, summarized and edited for emphasis or brevity. The authors are identified in the links and the copyright is theirs.*

The following section provides links to news stories, Freedom of Information act releases and other documentation reporting on government and government agency malfeasance from the highest level going back more than 60 years. The list of articles is the tip of the iceberg; a person could spend years digging up this information. The one thing that is clear from just what is listed is that corruption and evil grow over many years eventually eating away the core of the state, until it is accepted as a normal way of doing things.

- 1953. The [CIA hired Iranians to pose as Communists](#) to stage bombings in Iran in order to remove its democratically-elected prime minister to stop him from nationalizing Iran's oil industry.

- 1953. Evil is a family sport. Kermit Roosevelt of the American political family and chief of the C.I.A.'s Near East and Africa division directed the coup that overthrew Prime Minister Mohammed Mossadegh of Iran. Jeb Bush getting blown out of the 2016 Presidential primary is evidence the public has had enough with corrupt dynasties. Now if the Clinton machine's wrongdoings can be publicized, they should be next.
- 1954. Israeli military intelligence arranged to plant bombs inside Egyptian, American, and British-owned civilian targets, cinemas, libraries and American educational centers, code named Operation Susannah, to trick the United States into attacking Israel's enemies and cause Britain to keep its troops in Egypt.
- 1957. President Dwight Eisenhower and the British Prime Minister approved the use of Islamic extremists and false flag attacks to topple the Syrian government and murder Iranian citizens. The CIA and MI6 planned staged border incidents as an excuse for an invasion by Syria's pro-western neighbors, and arranged to murder three leading figures in the nation. In the plan Syria had to be "made to appear as the sponsor of plots, sabotage and violence directed against neighboring governments."
  - In a familiar pattern, the plan called for funding of a "Free Syria Committee" and the arming of "political factions with paramilitary or other actionist capabilities" within Syria. The CIA and MI6 would instigate internal uprisings, for instance by the Druze, a Shia Muslim sect, in the south, help to free political prisoners held in the Mezze prison, and stir up the Muslim Brotherhood in Damascus.
- 1967. On June 8, 1967, the US Navy intelligence ship USS Liberty was attacked in international waters by the air and naval forces of Israel. USS Liberty survivors have been forbidden for 40 years to tell their story under oath to the American public and have provided sworn evidence the Israeli forces attacked with full knowledge that this was an American ship, lied about it and covered it up.
- 1981. Ronald Reagan supported and instigated terrorism, claiming the mass murderer Rioss Montt was "a man of great personal integrity."
- 1981. The United States supplied Saddam Hussein with intelligence on Iran starting in 1981 and sent Donald Rumsfeld to in December 1983 to formalize relations with Iraq. Years later when it suited its policy, and in response to Hussein pegging off the US dollars for oil sales, Hussein and Iraq become the enemy.

- 1984. UK government used a legal loophole to permit mass surveillance of its citizens.
- 1991. Burning victims to death in a military action launched with lies is not the same as cutting off heads although the pictures of both are evidence of murder.
- 1995. America used Islamic groups to arm the Bosnian Muslims.
- 2000. Full Text of House Hearing on Terrorism in South Asia at which Rep. Rohrabacher Accuses State Department of Treacherously Supporting Taliban.
- 2001. The Bush administration made plans for war and for Iraq's oil before the 9/11 attacks documents released under the FOIA reveal. Officials from Exxon Mobil Corp., Conoco (before its merger with Phillips), Shell Oil Co. and BP America Inc. met in the White House complex with Dick Cheney to plot the theft of Iraq's oil, and then lied about their involvement.
- 2002. Bush administration spent millions of dollars to supply Afghan schoolchildren with textbooks filled with violent images, militant Islamic teachings including jihad. The primers, which were filled with talk of jihad and featured drawings of guns, bullets, soldiers and mines, have served since then as the Afghan school system's core curriculum. Even the Taliban used the American-produced books, though the radical movement scratched out human faces in keeping with its strict fundamentalist code.
- 2003. Tony Blair lies about WMD in Iraq to justify war.
- 2003. More than 165,000 civilians have died from direct war related violence caused by the US, its allies, the Iraqi military and police, and opposition forces from the time of the invasion through April 2015. The violent deaths of Iraqi civilians have occurred through aerial bombing, shelling, gunshots, suicide attacks, and fires started by bombing. The 165,000 figure for civilians killed from 2003 to 2015 is lower than the actual figure.
- 2006. Discussions of remapping Middle East borders to alleviate tension and “a strategic game changer for just about everybody, potentially reconfiguring alliances, security challenges, trade and energy flows for much of the world, too.” The only people not in these thoughts and ideas are the people who live there.
- 2006. US threatened to destroy Pakistan unless it agreed to join fight against al-Qaeda, grant US military right to use Pakistan as base and stop anti-American protests.

- 2007. The [Bush WMD lie and the resulting American Legacy in Iraq](#). On the tenth anniversary of the US invasion, the country is mired in a permanent crisis of sectarian violence, pervasive corruption and broken infrastructure.
- 2007. [The U.S. armed Al Qaeda to topple Libya's Gaddafi](#). The U.S. supported opposition which overthrew Libya's Gaddafi was largely [comprised of Al Qaeda terrorists](#). The White House and senior Congressional members deliberately and knowingly [pursued a policy to provide material support to these terrorist organizations](#) in order to topple Gaddafi, who had been working closely with the West actively to suppress al-Qaeda.
- 2007. [12 new principles of warfare](#). Morons' guide to permanently screwing up the world.
- 2009-2016. [US deceit, lies, and treachery to destroy Iran](#). The US is in the process of implementing a [Brookings Institute plan](#) which can best be described as the "Superb Offer Deception." The Brookings plan states: "any military operation against Iran will likely be very unpopular around the world and require the proper international context—both to ensure the logistical support the operation would require and to minimize the blowback from it. The best way to minimize international opprobrium and maximize support (however, grudging or covert) is to strike only when there is a widespread conviction that the Iranians were given but then rejected a superb offer—one so good that only a regime determined to acquire nuclear weapons and acquire them for the wrong reasons would turn it down. Under those circumstances, the United States (or Israel) could portray its operations as taken in sorrow, not anger, and at least some in the international community would conclude that the Iranians “brought it on themselves” by refusing a very good deal.
- 2011. [The US 5 year plan to destroy the governments in 7 countries in five years - starting with Iraq, Syria, Lebanon, Libya, Somalia, Sudan and Iran](#). (Video)
- 2013. [Brainwashing and Obama's War Propaganda and here Pentagon Gearing Up to Fight the 'PR War'](#)
- 2013. People held in Guantanamo without trial [have had their memory of the torture, abuse, waterboarding and other criminal acts by the US government classified so that they can only tell their lawyers about it but the lawyers cannot tell the world about it](#). The United States has become the criminal state and Gulag they accuse China and Russia of being.

- 2013. Drone warfare is neither cheap, nor surgical, nor decisive explains William J. Astore, USAF Lieutenant Colonel retired. According to Senator Lindsey Graham 4,700 people have been killed, the majority innocent civilians using drone strikes, between 2002 - 2013.
- 2014. ISIS a rebranded CIA Consequence to Justify War Abroad and Repression at Home.
- 2014. US claims to arm "moderate Syrian rebels," but is unable to or refuses to name any.
- 2014. America is using ISIS in three ways: to attack its enemies in the Middle East, to serve as a pretext for U.S. military intervention abroad, and at home to foment a manufactured domestic threat used to justify the unprecedented expansion of invasive domestic surveillance. By rapidly increasing both government secrecy and surveillance Obama's government is increasing its power to watch its citizens, while diminishing its citizens' power to watch the government. Terrorism is an excuse to justify mass surveillance and as the force site shows, control and modify citizen's behavior.
- 2015. Lucifer Effect draws in foreign politicians to US deception nightmare. Canada follows British lead in joining American terror campaigns.
- 2015. American Journalist murdered for reporting images of NATO member Turkey shipping ISIS militants into Syria using NGO World Food Organization trucks.
- 2015. Washington admits to creating safe havens for ISIS to attack Syria.
- 2015. ISIS alleged to have chemical weapons, a claim the US is using as a pretext to bomb Syria. But a retired US Colonel Anthony MacDonald, also of military intelligence is linked to the attacks. MacDonald apparently has been hired by a US contractor TechWise, a firm which specializes in military behavior manipulation objectives in foreign states, by Anthony Abati of TechWise, who is a former colonel in the U.S. Army Special Forces with TS clearance and SSBI (SCI eligible). The Washington Post performing its duty as a propaganda arm of the US military is dutifully telling American citizens Syria is using chemical weapons on its own people.
- 2015. US increasing Syrian intervention with Special Ops. Officials claim "concern" clashes may shift focus to battle with Russia.
- 2015. The Ultimate War Crime: America's "Global War on Terrorism." The United States has discarded pretensions to international legality and decency,

and embarked on a course of raw imperialism run amok.” ([William Rockler](#), Nuremberg Tribunal prosecutor).

- 2015. North Korea has good reason to want nukes. Former US Attorney General Ramsey Clark drafted a Report and Final Judgment on [US Crimes in Korea \(from\) 1945 - 2001](#), showing Washington used chemical and biological agents on the peninsula. By 1952, virtually everything in northern and central Korea was destroyed. Damage assessments showed 18 of 22 cities were half or more obliterated. Moreover, both the United States and South Korean government [have taken direct action to prevent any investigation and publishing of the true causes of the conflict](#) and the action both governments took during the war.
- 2015. [Saudi Arabia, America's ally](#), is the [ideological core](#) and major funder of ISIS.
- 2015. How the [US is world's biggest terrorist](#).
- 2015. [The US believes that it has an inalienable right to raw materials in developing nations](#).
- 2015. ["Guantánamo Diary"](#) reveals how the United States will capture, torture and imprison people without recourse to justice and trial, in violation of international human rights.
- 2015. Whistleblower documents reveal [US Defense Department assassination program in Yemen and Somalia](#) pointing to significant human rights violations by the US government.
- 2015. Former Defense Intelligence Agency Chief Michael Flynn says [the rise of ISIS was a "Willful Decision"](#) of the US Government and a [huge tactical blunder](#) that created ISIS' rise.
- 2015. The US military has become a largely [uncontrolled and unaccountable mass surveillance apparatus of civilian society that in the Cold War era would have been a hallmark of the "Evil Empire."](#) William J. Astore, USAF Lieutenant Colonel Retired.
- 2015. NATO seeks to establish a no-fly-zone over Aleppo and repel Syrian government forces, so that [“moderate rebels” can hold on to the city and repel lingering “Islamic State” \(ISIS\) forces](#).
- 2015. Murder children with drones and call the children ["fun sized terrorists"](#).
- 2015. The Military and the Obama Administration are [not in agreement on fighting terrorism](#).

- 2015. Canada's Harper government "shocked" by retaliation for its foreign bombing missions. Shows risk of being lapdog to American foreign-policy for 12 years.
- 2015. Spying and mass surveillance does not stop terrorism. It enables the police and military to be more effective terrorists and control public behavior.
- 2015. US tries to shift blame to Snowden for reaction to US terrorism. Threatening Snowden to discourage more whistleblowing.
- 2015. US use of confusing language to obscure criminal acts and confuse truth.
- 2016. US creation of ISIS started in Iraq.
- 2016. Media misleads public on terrorist threats. Media part of propaganda apparatus to provide citizens with altered information.
- 2016. US destroyed Iraq for its oil which led to creation of ISIS and US intended for ISIS to emerge in Syria.
- 2016. US and Allied "Safe Zone" Plan to Grab Territorial Booty in Northern Syria.
- 2016. Iran nuclear settlement. US officials are completely untrustworthy and not capable of making any deal with anyone it will live up to. Iran is the latest example in a long history of lying and double dealing.
- 2016. Syrian settlement supposedly involving the Syrians has conditions and participants involved that ensure its failure. The US is the key player dictating terms.
- 2016. Japan discovers US contamination of US Marines Camp Kinser base in Okinawa, using documents obtained under the FOIA. Contaminants include dioxin, PCBs, but Japan is blocked access to investigate further under US contract preventing them from doing so. The US denies levels are toxic, proving they are liars and criminals of major proportions willing to go to any length to prevent accountability for their actions.
- 2016. Murder by drone without remorse or accountability. The US drone programs continues around the world with innocent people being murdered and being covered up with lies and the broadening of terms of war to make drone murders a justifiable action as collateral damage from wars, which themselves are illegal.
- 2016. The US example to the world, is that global power means genocide, land-theft, mass enslavement, never paying reparations, with the illegally and brutally obtained money and military hardware wielded over others with the

declaration that the US is superior and a “respected leader” while in reality the country is feared, loathed, and isolated, maintaining and expanding its hegemony through continued methods of extreme propaganda, subversion, and physical force.

- 2016. US and NATO invade Libya to fight terrorists they created.
- 2016. Right on schedule, the US is now planning follow up military action in Libya as part of the 5 year plan to destroy Libya and finish the plot it hatched with the removal of Qaddafi. At best destroying lives and destabilizing another nation is all that will be accomplished.
- 2016. Saudi Arabia's Foreign Minister Adel al-Jubeir told CNN Syrian President Bashar al-Assad "will either leave by a political process or he will be removed by force."
- 2016. The US war in Afghanistan is renamed to deceive the American people to allow the war to continue.
- 2016 Ongoing. Propaganda is used to hide the true causes of terrorism and mask US provocation.
- 2016. 'US destabilizes world, not Britain scrapping nukes,' Ken Livingstone blasts US Ambassador.
- 2016. Israel is spraying toxins over Palestinian crops in Gaza, and is destroying Palestinian water supplies. These actions belie a treachery as bad as they suffered at the hands of the Nazis.
- 2016. WikiLeaks documents reveal the NSA is spying on world leaders for the US' economic/geopolitical interests. Terrorism is just a deliberately provoked pretext to keep American citizens in the dark and buried in bullshit like they are mushrooms so they will not interfere in the spread of US Administration corruption by actually trying to change things.
