

The colonists were tired of a corrupt British government, their private sector exploiters and their military occupation of the colonies. After roughly ten years of trying, the colonists finally had enough and threw the bastards out, killing as many as necessary, dying in even greater numbers, and created America. In the meantime:

- The people of Hong Kong are not armed or free and cannot free themselves from China. So, who is stupid?
- The people of China are not armed or free, and cannot free themselves from XI and the Communist Party. So, who is stupid?
- The people of Mexico are not armed or essentially free, and cannot free themselves from the corruption of the state and [the cartels](#) (one example of a sound reason to pay attention). So, who is stupid?
- The people of North Korea are not armed or free and cannot free themselves from Kim Jong-Un. So, who is stupid?
- The people of Cambodia, Cameroon, Eritrea, Ethiopia, Madagascar, Myanmar, Sudan, Tunisia, Zimbabwe are not armed or free, and cannot free themselves from their despotic leaders. So, who is stupid?
- The people of Thailand, Libya, and Pakistan, are not armed or free and cannot free themselves from their corrupt leaders. So, who is stupid?
- The people of Russia are not armed or free and cannot free themselves from the Russian system. So, who is stupid?
- The people of Saudi Arabia or Iran are not armed or free and cannot free themselves from their corrupt leaders. So, who is stupid?

- And the British are not armed, and live in a near surveillance state. So, who is stupid?

And don't preach to anyone about the courts fixing things using protests and elections. An election promise for both parties was to stack the courts with judges that ruled the way they wanted. If you are so stupid to believe a court is going to do anything for you, you deserve to be enslaved. The so-called liberals and Democrats want to take away Americans' arms, turning them into the same hapless and helpless citizens in the countries named above, and many Americans appear willing to lay down like dogs and let that happen. Ask any person who fled the countries they left if they would rather stand beside an armed American who would defend their country against a corrupt and controlling government like the ones they fled or a spineless liberal who would capitulate to a government like theirs and let America become the country they fled, and see what they say.

The fact that anyone has to flee their homeland tells you everything you need to know about them, and the country they ran from. None of them can hold a candle to the colonists.
