**STRATEGIC IMPLEMENTATION PLAN FOR
COUNTERING DOMESTIC TERRORISM**

~~CONFIDENTIAL~~

FINAL – AS APPROVED BY DEPUTIES

(U//~~FOUO~~) This Strategic Implementation Plan (SIP) provides direction and guidance for implementation of the National Strategy for Countering Domestic Terrorism. It is organized around the Strategy's four pillars, whose development was informed by the comprehensive assessment of today's domestic terrorism (DT) threat provided by appropriate elements of the intelligence and law enforcement communities in March 2021. This SIP is structured to reaffirm and promote the goals of the four pillars articulated in the Strategy; and actual implementation of the SIP should be approached in adherence to the principles which seek to ensure that U.S. Government efforts to address DT remain consistent with the rule of law and American values.

(U//~~FOUO~~) The National Security Council (NSC) staff-convened Counterterrorism Security Group/Domestic Violent Extremism (CSG/DVE) will, no less frequently than every 12 months, (1) review implementation of this SIP to evaluate where additional work is needed; and (2) review the SIP itself to consider whether any alterations should be made to fulfill the objectives set out in the Strategy. Any recommendations by the CSG/DVE for amending the SIP itself shall be coordinated by the NSC staff.

(U//~~FOUO~~) Countering DT demands coordinated, government-wide efforts. The SIP items laid out below are assigned to particular departments or agencies as "leads," sometimes with key supporting departments or agencies also listed. Those entities have primary responsibility for implementation; but they are expected to coordinate with—and receive support from—other departments and agencies as appropriate, and to the extent consistent with those departments/agencies' mandates and authorities. To the extent necessary, the CSG/DVE will be the forum to facilitate interagency coordination on DT-related matters and to address any obstacles or concerns that arise with respect to implementation of this SIP.

(U) Pillar One: Understand and Share Domestic Terrorism-Related Information

(U) Strategic Goal 1.1: Enhance domestic terrorism-related research and analysis.

- (U//~~FOUO~~) **Intended Impact 1.1.1:** The Federal Government's understanding of the DT threat is augmented, and that understanding informs relevant operations and programs. U.S. Government DT analytic production increases and is disseminated to a wide audience of appropriate recipients, inside and, as appropriate, outside of the Government, including state, local, tribal, and territorial partners.
 - (U//~~FOUO~~) **Action 1.1.1a:** Produce, on a regular basis, analytic products on relevant aspects of the DT threat, including the transnational aspects; and disseminate those products expeditiously and as widely as appropriate across and outside the U.S. Government. Products, when appropriate, should include an analysis of radicalization, recruitment, and mobilization to violence and prevention issues.
(Lead: FBI, DHS, and NCTC)
 - (U//~~FOUO~~) **Measure of Performance 1.1.1a:** Determine percentage of increase in analytic production over the next 12 months. Determine percentage of increase in disseminated products across the Federal

- (U//~~FOUO~~) **Action 1.1.1b:** Promote understanding among other Federal departments and agencies of criteria for and track domestic terrorism-related federal investigations, incidents, and prosecutions nationwide. Relatedly, review whether changes are needed to the National Incident-Based Reporting System (NIBRS) to better track domestic terrorism-related incidences across the nation. (Lead: FBI and DOJ)

 - (U//~~FOUO~~) **Measure of Performance 1.1.1c:** Review quantity and quality of information received by non-governmental experts, including how much of the information is unique, over the next six months.

(U) **Strategic Goal 1.2: Improve information sharing across all levels within, as well as outside, the Federal Government.**

- (U//~~FOUO~~) **Intended Impact 1.2.1:** DT-related information sharing increases at all levels inside and outside of the U.S. Government, including, when possible, making information publicly available in a manner consistent with legal and policy limitations on the sharing of sensitive law enforcement information, as well as the reporting of suspicious activity, as appropriate.
 - (U//~~FOUO~~) **Action 1.2.1a:** Continue to develop and implement more robust public reporting on federal DT-related prosecutions.
