

[The Steady State](#)

This annotated letter is from a group calling itself [The Steady State](#). They recommend electing Joe Biden to maintain the status quo. There are hundreds of links listed in the red outlined inserts listing activities **this band of thugs want to maintain**, suggesting they somehow build America's reputation in the world. What they are really doing is destroying it.

Their attempt to influence a vote for Biden is simply propaganda to convince the public to vote for a party badly out of sync with Americans on illegal immigration, globalism, offshoring jobs, and the second amendment.

These guys think the public is stupid and are completely delusional suggesting the steady state they want to perpetuate builds America's reputation, unless lying, murdering and bullying is the reputation they are promoting. Read the links to see for yourself so that you cannot be fooled by accusations of propaganda, fake news, misrepresentation or whatever.

The real question voters have to ask themselves is why the military industrial complex is going to such great lengths to make sure no one looks at their utter lies and BS. Too bad it's been reported on forever. Now is as good a time as ever to flush these lying rats down the drain.

National Security and Homeland Security Veterans: Statement Endorsing Vice President Biden for President 2020

The undersigned have served in various capacities in the U.S. National Security and Homeland Security Communities. As Intelligence Officers, defense policy makers, diplomats and Congressional staffers, we have served the country during Democratic and Republican administrations. Some of us are lifelong Democrats; others, Republicans; some resolutely independent.

We write to endorse Vice President Joe Biden for President of the United States.

Our nation's foreign affairs are in disarray; our alliances frayed, and **our national prestige declining**. Our approach to both friends and enemies abroad has been chaotic and unprincipled. **Our credibility as a nation has been lessened**. And, perhaps most importantly, our place in the world as a source of **moral leadership** has nearly been lost. As a country, we are increasingly less secure and less safe.

Nice Try:

Let's do a quick rundown of the lies in the highlighted yellow areas, made by a bunch of serial propagandists who simply don't want facts to get in the way of a good lie to mislead American citizens. I have saved a PDF of their names in case they scrub it so you have it. Prestige and credibility according to them include overthrowing legitimate governments, spying on allies, murdering Americans and foreign citizens to test drugs, hiring and protecting NAZIs from WW2 so they can learn their tactics on torturing Jews, killing innocent citizens to teach them a lesson, lying about the War in Iraq which killed 288,000 people so far, torturing alleged enemies, undermining the government of Trump starting before he was elected, providing false data on Russian hacking. The list is endless.

A clump of bodies on a road in South Vietnam.

Exclusive

This photograph will shock Americans as it shocked the editors and the staff of The Plain Dealer. It was taken by a young Cleveland area man while serving as a photographer with the U.S. Army in South Vietnam.

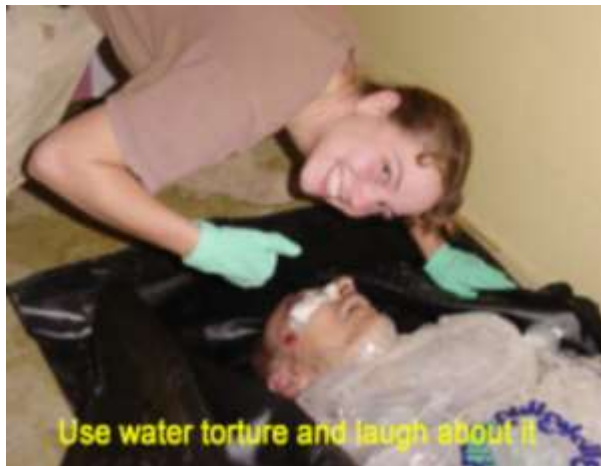

It was taken during the attack by American soldiers on the South Vietnamese village My Lai, an attack which has made world headlines in recent days with disclosures of mass killings allegedly at the hands of American soldiers.

This photograph and others on two special pages are the first to be published anywhere of the killings.

This particular picture shows a clump of bodies of South Vietnamese civilians which includes women and children. Why they were killed raises one of the most momentous questions of the war in Vietnam.

Cameraman Saw GIs Slay 100 Villagers

To be clear, those of us signing this letter do not agree on everything, or even most things, concerning foreign policy, defense or homeland security. Our policy views cover most of the spectrum, and many

of us have often been in opposition, sometimes bitterly, with each other. But we have always been bound by profound patriotism, and a **deep belief in our American democracy**.

But the course of events since the 2016 Presidential election has been deeply troubling. It is not just policy differences. President Trump, and his approach to leadership at home and abroad, has created an existential danger to the United States, its place in the world, and the values we share. His reelection would continue this downward spiral, and will likely have catastrophic results. **Democracy itself is at stake**.

These guys are so full of crap and hubris it's amazing. Too bad for them history and an occasionally free press expose the conduct they would like to get away with in the links. Watch this video if you have not done so yet explaining [why somebody that calls these morons out, or like I am doing, simply puts a little sunlight on them, which is a big problem for them](#).

The **murder of George Floyd** demonstrates what happens when any group assumes it is superior to anyone else and that their power is all they need to conquer and control others. The problem is the others they seek to conquer and control have to be smaller or less determined than them. The protests and riots that are taking place at the moment are evidence that people can only be pushed so far. The guns have not come out yet which tells me people like America, they just don't like the way things are being run. And while the military is certain their fighting force can put down the people, that will require the military and the police to start killing their friends and neighbors. For what, a paycheck from assholes? I doubt it.

It's the same with American foreign policy. The only way that whore can be gussied up is with a lot of makeup and propaganda. American foreign policy is exactly what the police in Minneapolis did to George Floyd. You really have to be stupid or as ignorant as the cop that killed George Floyd to believe you can put your knee of the neck of nations to make them conform to your will.

This article is art and a tribute to everyone who in the links exposes the bullshit the Steady State promotes. I will call it "Sunlight Over A Pile Of Turds."

We believe that Joe Biden has the best chance, of all the Democratic candidates, to ensure that Donald Trump does not continue as President for four more years, and for that reason alone would endorse him. But we also believe that, of the candidates, he is best suited to reverse the course of American national security decline. We endorse him because we believe our Country is in grave danger, and Vice President Biden represents the best chance of surviving that danger, reversing course, and rebuilding a strong, safe and democratic America that is a global leader.

We are not, of course, giving up our views and approaches to national security; should Vice President Biden be elected President, many of us will take up the honorable position of "loyal opposition," and will fight as we have before for the policies we think best. But now, and today, it is necessary to put aside our differences, and our party affiliations, and voice our support for Vice President Biden.
